Response to Amendment

The following is in response to the amendment filed on December 12, 2007.

Allowable Subject Matter

Claims 11-21 and 25-40 are allowed.

The following is an examiner's statement of reasons for allowance:

Claims 11 and 13-20 are allowed, because in a paper incorporating online finishing with at least one finishing stage having cutting equipment for cutting a tail and tail threading equipment, the prior art does not disclose or suggest a single-contact draw point arranged downstream of the cutting equipment wherein the single-contact draw point is formed of only a single dryer cylinder and a single drying wire wrapping an upper portion of the single dryer, and wherein the cylinder and wire form a web path to broke treatment after the wire leaves the cylinder.

Claim 12 is allowed, because in a paper machine having online finishing with at least one finishing stage with finishing equipment, cutting equipment for cutting a tail, and tail threading equipment including a carrier rope system, the prior art does not disclose or suggest a single-contact draw point arranged downstream of the cutting equipment formed between a cylinder and a wire in contact with the cylinder, wherein the carrier rope system passes through the single-contact draw point, and wherein measuring elements measuring selected properties of paper are upstream of the single-contact draw point and downstream of the finishing equipment.

Claims 21, 25-30, and 40 are allowed, because in a paper machine having a dryer section and online finishing with at least one finishing stage with finishing equipment, cutting equipment

for cutting a tail, tail threading equipment, and a carrier rope system, the prior art does not disclose or suggest a single-contact draw point arranged downstream of the cutting equipment formed between a cylinder and a wire in contact with the cylinder, wherein the carrier rope system passes through the single-contact draw point, and wherein measuring elements measuring selected properties of paper are upstream of the single-contact draw point and downstream of the finishing equipment.

Claims 31-33, and 39 allowed, because in a paper machine incorporating online finishing, the prior art does not disclose or suggest providing first and second finishing stages with finishing equipment and cutting equipment as claimed, wherein both stages have draw points each comprising only a single dryer cylinder and a single drying wire wrapping the upper portion of the cylinder, each forming a web path to broke treatment when the single drying wire leaves the single dryer cylinder. Accordingly, the method of claims 34-36 is allowed for providing draw points having the same features.

Claims 37-38 are allowed, because in a paper machine incorporating online finishing, the prior art does not disclose or suggest providing a precalendering finishing stage and a coating finishing stage each with a draw point having only a single dryer cylinder wrapped by a single drying wire, wherein each draw point also has an open draw leading in to the draw point, cutting equipment positioned within each open draw, and a point leading to broke treatment equipment.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Response to Arguments

Applicant's arguments filed December 12, 2007 have been considered.

In view of the arguments, the amended claims overcome all claims objections, the rejection under 35 U.S.C. 112, second paragraph, and the rejections under 35 U.S.C. 103(a) over Baldini (US 5,641,387) in view of Christiansen (US 5,517,765) and Alheid (US 4,728,396), with our without Broom (US 6,630,057).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Eric Hug whose telephone number is (571) 272-1192.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Steven Griffin can be reached on 571 272-1189. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
